Smart Lock innovator Nuki provides Airbnb hosts with new virtual key management option

Berlin, Graz (April 2018) Nuki, Europe's leading provider of retrofit smart access solutions proudly announces its working with Airbnb, a global travel community that offers magical end-to-end trips, including where you stay, what you do and the people you meet, to provide Airbnb hosts with additional ways to make hosting easier.

Following the quick installation of a Nuki Smart Lock, hosts simply need to log into the online Nuki Web platform and link the Nuki Smart Lock to their Airbnb account. For guests, once a booking is confirmed with a host using a Nuki Smart Lock, they'll automatically receive a message mentioning the listing has a smart lock enabled, and a link will be shared so they can download the Nuki app and use it as a way to unlock and lock the door. The app limits guest access to the duration of their stay. For hosts, Nuki provides the option of getting rid of physical key-handovers, and for guests Nuki can provide more 24/7 Check-in and Check-out availability.

"Airbnb is constantly investing in its community to improve the quality and experience for hosts and guests. At Nuki, we believe that our dedication to simplifying life with our products is the perfect match for Airbnb," explains **Martin Pansy**, founder and CEO of Nuki Home Solutions. *"By facilitating 24/7 checkin, remote access rights management and keyless access for guests and caretakers, the new partnership makes hosting and traveling smarter and more fun than before. We know that a lot of Nuki users already successfully host with the support of our product portfolio. Convenience and security is of utmost importance for us. Therefore, we believe to be the perfect fit for Airbnb hosts".*

Prices and Availability

The Nuki Combo, consisting of a Nuki Smart Lock and an accessory Nuki Bridge is available for 299 euros. The price of the small Bluetooth remote control Nuki Fob is 39 euros. All prices include VAT. The products can be ordered online at the Nuki Shop (<https://nuki.io/en/shop/>) or at Amazon. Via their Airbnb Host Assist site, Airbnb hosts receive the Nuki Combo at a premium price. More information about the integration can be found at <https://nuki.io/en/airbnb/>.

The Nuki Smart Lock is compatible with Europrofile and Swiss Round Cylinders. With the help of the Nuki installation check it can be easily found out if Nuki fits your door: <https://nuki.io/en/installation-check/>.

About Nuki

Nuki Home Solutions is a leading provider of retrofit, smart access solutions in Europe. The company's vision is aimed at making existing door locks smarter and thereby replacing the physical key. Nuki Home Solutions was founded in 2014 in Graz by Up to Eleven. The CEO of Nuki Home Solutions is Martin Pansy. Further information can be found at <https://nuki.io/en/>.

About Airbnb

Founded in 2008, Airbnb is a global travel community that offers magical end-to-end trips, including where you stay, what you do and the people you meet. Airbnb uniquely leverages technology to economically empower millions of people around the world to unlock and monetize their spaces, passions and talents to become hospitality entrepreneurs. Airbnb's accommodation marketplace offers access to millions of places to stay in more than 191 countries, from apartments and villas to castles, treehouses and B&Bs. With Experiences, people can see a different side to a destination through unique, handcrafted activities run by locals, while a partnership with Resy provides access to the best local restaurants in selected countries. All of this is brought together in one easy-to-use and beautifully designed website and app.
