

Nuki honoured with IoT Breakthrough Award

Graz (Austria), January 3, 2020 – Nuki, the market-leading name in smart locks has been named 'IoT Emerging Company of the Year' at the IoT Breakthrough Awards. Within the process the jury highlighted that they were particularly impressed by the ease of use that the Nuki Smart Lock 2.0 and the Nuki Opener offered consumers.

"We are very proud and pleased that our achievements have been recognised, but we have only just started," commented Martin Pansy, CEO of Nuki.

"With an innovative product portfolio and remarkable market growth, Nuki has established itself as one of Europe's market leaders in the field of smart locks - which is definitely a breakthrough for the company," explains James Johnson, Managing Director of IoT Breakthrough Awards. "We are very pleased to honour this company as part of our annual IoT Breakthrough Award Program."

It was a particularly exciting year for Nuki Home Solutions in 2019. With the launch of the Nuki Opener the company has come one step closer to its self-imposed goal of making the traditional key obsolete. The Opener gives people living in apartment buildings the option to automatically open their front door.

The Nuki Smart Lock 2.0 has been specifically designed to cater for the common UK oval-cylinder lock, whilst retaining Nuki's easily installed retrofitting. The Smart Lock 2.0 seamlessly fits over your existing lock and key in less than three minutes with no need for replacing door fixtures. Nuki products integrate with existing Smart Home solutions such as Ring and Nest, as well as popular voice assistants Siri, Alexa and Google Assistant. The full suite of products is available on the Nuki website -<https://nuki.io/en/>.

At IFA 2019 Nuki published a forecast to break 100,000 smart locks sold by the end of the year. This goal has been achieved and exceeded.

About Nuki

Devised by multi award-winning Austrian designers EOOS.com, built in Europe, and utilising bank-grade security software, the Nuki Smart Lock 2.0 and Nuki Opener are fully compatible with Android and iOS and can be used to assign digital access rights to friends, family, and service providers via the companion app. Nuki offers the convenience of the optional Nuki Fob and Nuki Keypad – ideal access solutions for children, tradespeople, carers and for those without a smartphone. The optional Nuki Opener also enables the operation of the front door to apartment buildings simply via the Nuki app, as well as remotely.

To date, Nuki has delivered over 70,000 Nuki Smart Locks to customers, by the end of 2019 the company expects to surpass 100,000 installed locks. "We are incredibly proud of how positively our system has been received by customers and that we are experiencing fast and healthy growth", says Martin Pansy. "With over 70 million detached houses and 50 million apartment buildings in Europe, our core market, there's still plenty of room to grow."

About Nuki Home Solutions GmbH

Nuki Home Solutions is a leading provider of retrofit intelligent access solutions for Europe.

One team, one mission

"We have set ourselves the goal of making existing access solutions more intelligent and thereby replacing the physical key. We're excited to take on this challenge because we believe in simplifying everyday life through the use of mobile technologies," says Nuki CEO Martin Pansy, explaining his company's mission. Nuki Home Solutions GmbH was founded in Graz in 2014. After a successful crowdfunding campaign in 2015, the company has grown steadily and employs more than 40 people in Graz. In addition to the established Nuki Smart Lock in the current version 2.0 and an extensive range of accessories, Nuki is working hard to further develop smart access solutions for a completely keyless future. Further information can be found at <https://nuki.io/en/>.
