

## Sustainable and convenient Nuki Power Pack available now

Nuki Power Pack, the rechargeable battery pack for the Nuki Smart Lock, lasts twice as long as conventional batteries and reduces waste.

Graz (Austria) – 12/01/2021. With the Nuki Power Pack a rechargeable solution for the Nuki Smart Lock is now available. The power in the Nuki Power Pack lasts up to 12 months, about twice as long as conventional batteries.

### Bye-bye batteries, hello Power Pack!

The Power Pack, for now exclusively in the Nuki webshop, is inserted instead of the battery compartment and is compatible with all Nuki Smart Lock generations. On top of that, it offers twice the durability of conventional batteries and lasts up to 12 months. A special plus: the exact charging level of the Power Pack is visible in the Nuki app at any time.

### Smart locking without breaks

The high-capacity power pack can be fully charged in about 10 hours using a regular adapter. However, the USB-C charging port on the base of the Power Pack can also be used during operation. For example, the Power Pack can be charged with a conventional power bank during operation or can even be powered permanently. This is a great advantage especially in case of longer absences - for example when renting out your holiday property.

### Pricing and availability

The Nuki Power Pack is compatible with all Nuki Smart Lock generations and is available now exclusively in the web shop at [shop.nuki.io](http://shop.nuki.io) for 49 euros.

### About Nuki Home Solutions GmbH

Nuki is a leading provider of retrofit intelligent access solutions for Europe.

### One team, one mission

“We have set ourselves the goal of making existing access solutions more intelligent and thereby replacing the physical key. We’re excited to take on the challenge because we believe in simplifying everyday life through the use of mobile technologies,” says Nuki CEO Martin Pansy, explaining his company’s mission.

Nuki Home Solutions GmbH was founded in Graz (Austria) in 2014. After successful crowdfunding in 2015, the company has grown steadily and employs more than 80 people in Graz. In addition to the established Smart Lock in the current version 2.0 and an extensive range of accessories, Nuki is working hard to further develop smart access solutions for a completely keyless future. Further information can be found at <http://nuki.io/en/>.
