

WELCOME HOME

The Nuki App is now available for Huawei Smart Watches

From now on you can also use your Huawei Watch to control your Nuki Smart Lock - even without carrying your phone with you.

Graz (Austria) – 14/07/2021. **Control up to three Nuki products via your Huawei smartwatch thanks to the integration of the Nuki App with Harmony OS.**

Leave your smartphone at home

Those who have equipped their front door with a Nuki Smart Lock haven't taken keys with them for a long time. With your Huawei Smart Watch even your phone can stay at home. The Nuki App for Huawei smartwatches with HarmonyOS can now act as your wearable key. Users can open their door simply via a gesture on the watch. This is a game changer, especially for sports enthusiasts. You won't need to carry the weight of your smartphone while running. "With this step the Nuki App is now compatible with all common smartwatches.", says Martin Pansy, founder and CEO of Nuki Home Solutions. "Whether Apple Watch, Garmin, Android Wear, Samsung Galaxy Watch or now also the Huawei Watch - from now on, you'll always have the Nuki App on your wrist and the status of your door close at hand."

Availability

The Nuki App is compatible with all Huawei Smart Watches running on HarmonyOS and is free of charge. Before setting up the Nuki App your smartwatch needs to be connected to the Huawei Health App on your phone. The iOS-Version of the Health App is not supported yet.

About Nuki Home Solutions GmbH

Nuki is a leading provider of retrofit intelligent access solutions for Europe.

One team, one mission

"We have set ourselves the goal of making existing access solutions more intelligent and thereby replacing the physical key. We're excited to take on the challenge because we believe in simplifying everyday life through the use of mobile technologies," says Nuki CEO Martin Pansy, explaining his company's mission.

Nuki Home Solutions GmbH was founded in Graz (Austria) in 2014. After successful crowdfunding in 2015, the company has grown steadily and employs more than 80 people in Graz. In addition to the established Smart Lock in the current version 2.0 and an extensive range of accessories, Nuki is working hard to further develop smart access solutions for a completely keyless future.
